Contents

VOLUME 20, NUMBER 1, MARCH 1995
Published 5 June 1995

M. BASS and J. M. CHERRETT
Fungal hyphae as a source of nutrients for the leaf-cutting ant *Atta sexdens* 1–6

JACQUES BRODEUR and LOUISE E. M. VET
Relationships between parasitoid host range and host defence: a comparative study of egg encapsulation in two related parasitoid species 7–12

JOHN COLVIN and RICHARD J. COOTER
Diapause induction and coloration in the Senegalese grasshopper, *Oedaleus senegalensis* 13–17

SAMUEL FURRER and PAUL I. WARD
Differential nutrient extraction in the funnel web spider *Angelena labyrinthica* 18–22

M. J. DOUGHERTY, P. M. GUERIN and R. D. WARD
Identification of oviposition attractants for the sandfly *Lutzomyia longipalpis* (Diptera: Psychodidae) in volatiles of faeces from vertebrates 23–32

HANNE DUVE, PAUL WREN and ALAN THORPE
Innervation of the foregut of the cockroach *Leucophaea maderae* and inhibition of spontaneous contractile activity by callatostatin neuropeptides 33–44

GERD GÄDE
Isolation and identification of AKH/RPCH family peptides in blister beetles (Meloidae) 45–51

YONGGYUN KIM and E. S. KRAFSUR
In vivo and *in vitro* effects of 20-hydroxyecdysone and methoprene on diapause maintenance and reproductive development in *Musca autumnalis* 52–58

DAVID MARTÍN, MARIA-DOLORS PIULACHS and XAVIER BELLÉS
Patterns of haemolymph vitellogenin and ovarian vitellin in the German cockroach, and the role of Juvenile Hormone 59–65

ERIK PETERSSON
Male load-lifting capacity and mating success in the swarming caddis fly *Athripsodes cinereus* 66–70

C. J. SANDERS
Disruption of male spruce budworm orientation to female moths by pheromone and pheromone analogues in a wind tunnel 71–80

W.-Q. WU, B. S. HANSSON and C. LÖFSTEDT
Electrophysiological and behavioural evidence for a fourth sex pheromone component in the turnip moth, *Agrotis segetum* 81–92

VOLUME 20, NUMBER 2, JUNE 1995
Published 5 September 1995

JANE GOVER and LES STRONG
Effects of ingested ivermectin on body mass and excretion in the dung fly, *Neomyia cornicina* 93–99

NIGEL GRIFFITHS, QUENTIN PAYNTER and JOHN BRADY
Rates of progress up odour plumes by tsetse flies: a mark–release video study of the timing of odour source location by *Glossina pallidipes* 100–108

J. L. HOLLIDAY and N. J. HOLLIDAY
Changes in learning ability and mechanism during development of grasshopper nymphs, *Malanoplus bivittatus* 109–116

A. MAFRA-NETO and R. T. CARDÉ
Influence of plume structure and pheromone concentration on upwind flight of *Cadra cautella* males 117–133

LUO LIN-ER, J. J. A. VAN LOON and L. M. SCHOONHOVEN
Behavioural and sensory responses to some neem compounds by *Pieris brassicae* larvae 134–140

GLEN POWELL, JIM HARDIE and JOHN A. PICKETT
Behavioural evidence for detection of the repellent polygodial aphid antennal tip sensilla 141–146

DANIELLE ROJAS-ROUSSE, GÉRALDINE DOURY, CHRISTOPHE TERRASSE and ROBERT KALMES
Behavioural plasticity in the stinging act of female ectoparasitoids 147–154

R. S. MCDONALD and J. H. BORDEN
The relationship of age and ovarian development to mating of *Delia antiqua* (Diptera: Anthomyiidae) 155–163

Y.-J. DU, J. J. A. VAN LOON and J. A. A. RENWICK
Contact chemoreception of oviposition-stimulating glucosinolates and an oviposition-deterrent cardenolide in two subspecies of *Pieris napi* 164–174

ERICH STÄDLER, J. A. A. RENWICK, CELIA D. RADKE and KUSUM SACHDEV-GUPTA
Tarsal contact chemoreceptor response to glucosinolates and cardenolides mediating oviposition in *Pieris rapae* 175–187

Announcement 188

VOLUME 20, NUMBER 3, SEPTEMBER 1995
Published 21 November 1995

P. ANDERSON, B. S. HANSSON and J. LÖFQVIST
Plant-odour-specific receptor neurones on the antennae of female and male *Spodoptera littoralis* 189–198

ABDELGHANI BOUAÏCHI, PETER ROESSINGH and STEPHEN J. SIMPSON
An analysis of the behavioural effects of crowding and re-isolation on solitary-reared adult desert locusts (*Schistocerca gregaria*) and their offspring 199–208

DAVID F. COOK
Do protein-limited female *Lucilia cuprina* (Diptera: Calliphoridae) obtain a nutritional benefit from mating? 209–212

J. W. HARGROVE
Towards a general rule for estimating the stage of pregnancy in field-caught tsetse flies 213–223

GABRIELLA GIBSON
A behavioural test of the sensitivity of a nocturnal mosquito, *Anopheles gambiae*, to dim white, red and infra-red light 224–228

A. MAFRA-NETO and R. T. CARDÉ
Effect of the fine-scale structure of pheromone plumes: pulse frequency modulates activation and upwind flight of almond moth males 229–242

HSIN LOKE and SARAH E. RANDOLPH
Reciprocal regulation of fat content and flight activity in male tsetse flies (*Glossina palpalis*) 243–247

T. OHTSU, M. T. KIMURA and S. H. HORI
The influence of eclosion timing on winter survival and triacylglycerol accumulation in four temperate species of *Drosophila* 248–252

MASAHITO T. KIMURA and TAKAO YOSHIDA
A genetic analysis of photoperiodic reproductive diapause in *Drosophila triauraria* 253–256

SUSAN M. RANKIN, KELLY M. FOX and CHRISTOPHER E. STOTSKY
Physiological correlates to courtship, mating, ovarian development and maternal behaviour in the ring-legged earwig 257–265

JUDITH REINHARD and MANFRED KAIB
Interaction of pheromones during food exploitation by the termite *Schedorhinotermes lamanianus* 266–272

STEVEN SCHOFIELD, ALAN CORK and JOHN BRADY
Electroantennogram response of the stable fly, *Stomoxys calcitrans*, to components of host odour 273–280

VOLUME 20, NUMBER 4, DECEMBER 1995
Published 22 December 1995

J. R. ASHWORTH and R. WALL
Effects of ovarian development and protein deprivation on the activity and locomotor responses of the blowfly, *Lucilia sericata*, to liver odour 281–285

NIGEL GRIFFITHS and JOHN BRADY
Wind structure in relation to odour plumes in tsetse fly habitats 286–292

JOHN BRADY, NIGEL GRIFFITHS and QUENTIN PAYNTER
Wind speed effects on odour source location by tsetse flies (*Glossina*) 293–302

M. HODKOVA and R. SOCHA
Effect of temperature on photoperiodic response in a selected 'non-diapause' strain of *Pyrrhocoris apterus* (Heteroptera) 303–308

PATRICIA LEXTRAIT, JEAN-CLAUDE BIÉMONT and JEAN POUZAT
Pheromone release by the two forms of *Callosobruchus maculatus* females: effects of age, temperature and host plant 309–317

JYOTI DWIVEDI and OM P. AGRAWAL
Degradation of cuticle during larval–pupal and pupal–adult development of the housefly, *Musca domestica* 318–322

V. SOROKER, A. HEFETZ, M. COJOCARU, J. BILLEN, S. FRANKE and W. FRANCKE
Structural and chemical ontogeny of the postpharyngeal gland in the desert ant *Cataglyphis niger* 323–329

C. LÓPEZ, M. EIZAGUIRRE and R. ALBAJES
Diapause detection and monitoring in the Mediterranean corn stalk borer 330–336

LINDA J. MCPHERON and ALBERTO B. BROCE
Influence of environmental factors on the wandering phase and pupariation in stable fly, *Stomoxys calcitrans*, larvae 337–342

MART M. OTTENHEIM, G. ESMEE WALLER and GRAHAM J. HOLLOWAY
The influence of the development rates of immature stages of *Eristalis arbustorum* (Diptera: Syrphidae) on adult abdominal colour pattern 343–348

J. L. TODD, S. ANTON, B. S. HANSSON and T. C. BAKER
Functional organization of the macroglomerular complex related to behaviourally expressed olfactory redundancy in male cabbage looper moths 349–361

JAN ŽĎÁREK and DAVID L. DENLINGER
Changes of temperature, not photoperiod, control the pattern of adult eclosion in the tsetse, *Glossina morsitans* 362–366
